

# Learn to Swim Information Sheet

## Introduction

The Rockingham Aquatic Centre provides learn to swim lessons which include a water safety component. Lessons start from four years of age.

## Lesson days and times

Lesson days and times are determined by demand, with priority given to the days receiving the most interest. To help us plan our timetable and maximise the likelihood of classes proceeding, please nominate your preferred days of the week on the application form. Class times are generally scheduled from Monday to Thursday between 3.30pm and 5.30pm, however, not all days may be offered, as classes will only be scheduled where sufficient demand exists.

Please note that enrolments can only be made into classes that match the skill level already achieved.
